### OUR VISION

We are committed to equity & excellence by providing the school community with opportunities to grow socially, emotionally, and academically. All stakeholders will have access to equal opportunities, supports, interventions and the benefit of a multicultural environment designed for collaboration & growth. We do this by building the leadership capacity of all stakeholders, maximizing our resources, engaging all families, celebrating accomplishments, and ensuring everyone moves toward a shared belief in equity, excellence, and high expectations for all students.

### OUR MISSION

Our mission is to continue to develop reflective, empowered learners who possess the knowledge, skills and growth mindset to contribute to our school community and the world beyond. Through the collaborative efforts of the students, families, and staff members students will develop a strong sense of ownership of their learning and be accountable to themselves and others. They will promote equity, excellence, and empathy in all they do.
